

PRESS RELEASE  
FOR IMMEDIATE RELEASE

## **Award winning Workflo Solutions success continues as they acquire Pyramid IT.**

Workflo Solutions has announced today that it has signed an agreement to acquire West Lothian IT Support company Pyramid IT.

Based in Livingston, Pyramid IT offers IT and computer support to business across West Lothian, Edinburgh and throughout Scotland. The company has a fantastic reputation for offering clients outstanding service at a competitive price. This reputation and breadth of knowledge allows Workflo to enhance its current product offering and supports its ambition to become Scotland's leading managed service provider.

"We are delighted to welcome Pyramid IT to our company portfolio. Pyramid IT is a strong, innovative company, and nicely complements our business. Pyramid's focus on making IT Support delightfully easy aligns closely with Workflo's core values and our continued commitment to improving business critical processes like printing, scanning and data management said Michael Field, Managing Director of Workflo Solutions.

Steven Burrows founder of Pyramid IT said "This is an exciting time for Pyramid IT clients. The acquisition offers them access to a broader portfolio of products and services, allowing them to improve efficiencies and to drive savings. I would like to thank our clients for their support & loyalty, and I wish them well on their new journey as part of the Workflo group"

Pyramid IT will continue to be based in Livingston and after a transition period, Steven will move into Penetration Testing services to protect SME businesses from Cyber Attacks.

Workflo Solutions is one of Scotland's leading managed service providers. With extensive expertise in Managed Print Services, Digital Workflow Solutions, Electronic Document Management, Cloud Computing and IT Infrastructure Support.
